1. To order your repeat medication, click on the 'Make a Request' button and you will be taken to a screen with a list of all your available medication.
2. Put a tick in the box to the left of each item you require and then click on 'Submit Request' at the bottom of the page.
3. You can also send a brief message to the surgery by typing in the message box at the bottom of the page.

Select the medicine(s) you want to request by selecting the check box. Add a message related to the request if required and click the "Submit request" button.

Note: If the medication type or dose has been changed within the last 28 days by anyone other than your/the patient's GP practice e.g. at hospital, this repeat prescription may not be up to date. If this is the case please contact your GP practice.

Unless you have not done so already, or you collect your prescription from the surgery, please add a message to your My Health Online prescription request, informing us of the chemist that you would like to collect your prescription from.

Please allow 48 hours (i.e. 2 working days), excluding weekends and Bank Holidays, for your request to be processed. Please note that if you choose a pharmacy as a collection point, the turnaround time is at least 3 working days rather than the usual 2 if collecting your prescription from the surgery. Please speak to your chosen chemist to find out how long it will normally take. Online requesting should not be used for urgent prescriptions or for medications that are not on repeats. Thank you.
